COSMO PEEL FORTE

DERMACEUTIC
LABORATOIRE

- Strength: Medium to Deep chemical peel
▪ (can be compared to TCA 35%)
- Indication: Appearance of wrinkles, texture irregularities, smoker's complexion and pigment disorders
- Benefits:
 - Reduces signs of skin aging, acne and pigment spots
 - Improves skin texture and smoothness
- Reason to believe:
 - Complementary roles of 3 acids: TCA, Phenol and Glycolic Acid
 - **Minimized risks of hyperpigmentation** (vs. other deep peels) thanks to optimal active ingredients concentration, controlled and homogenous penetration of the solution
 - **Little to no pain** for optimal in-clinic patients experience
- Frequency: Up to 2 times at 6 week interval

20 ml bottle
For 12 treatments

COSMO FORTE - KEY INGREDIENTS

10% PHENOL - *new active*

- Reduces the burning pain induced by TCA
- Coagulates the cells faster and deeper compared to TCA
- Regenerates dermal architecture deeply

20% TCA

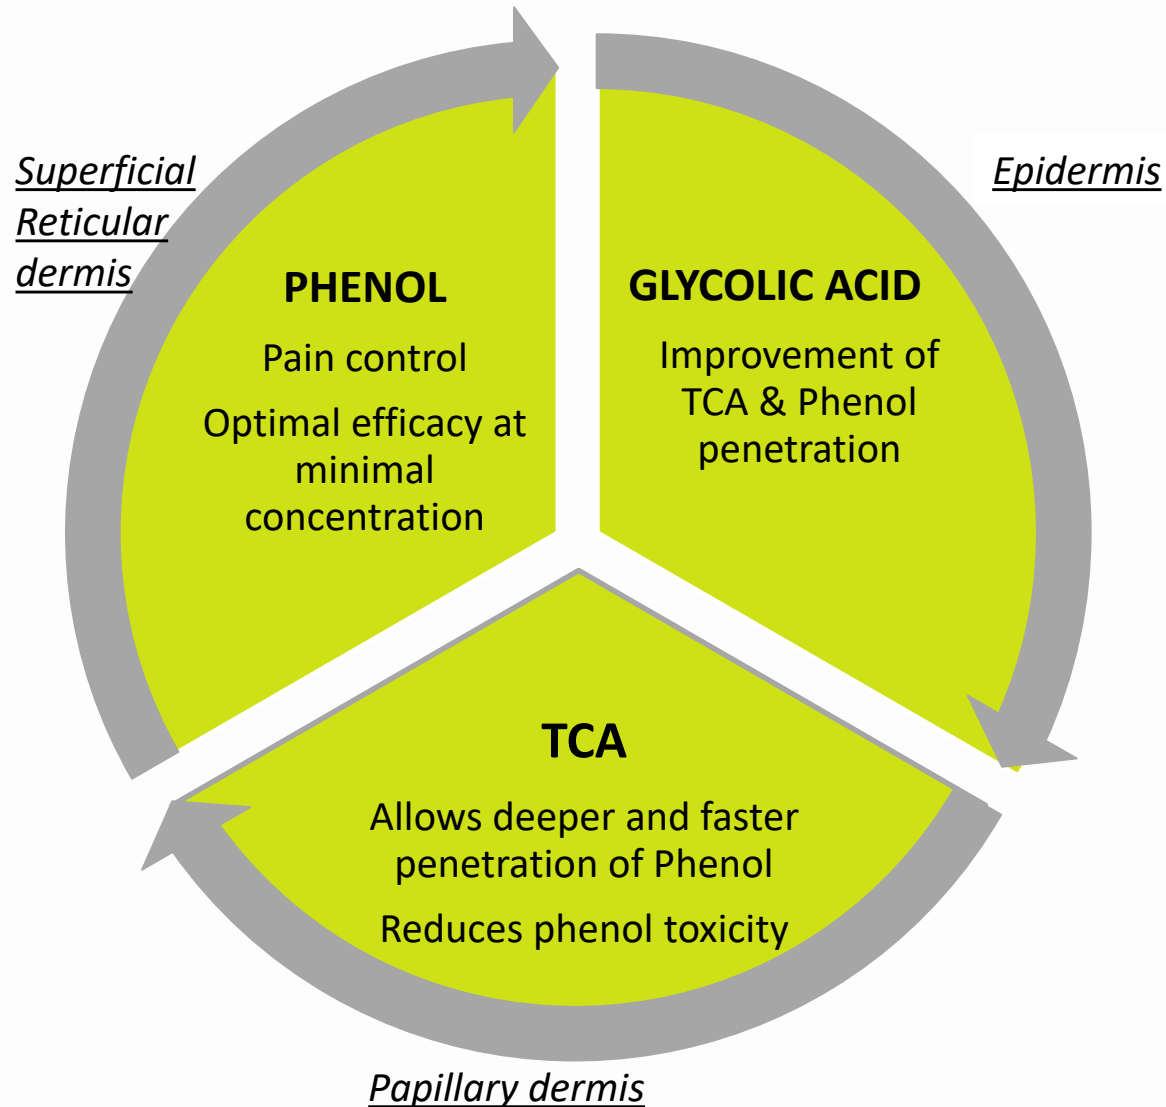

- Coagulates skin proteins and accelerates skin renewal
- Allows deeper and faster phenol penetration
- Provides better results with a lower phenol concentration

10% GLYCOLIC ACID

- Provides keratolytic action to increase penetration of others chemical substances and to improve peel results

SYNERGY OF 3 ACTIVE INGREDIENTS

Optimal synergy to:

- ✓ Optimize the powerful action of the peel solution
- ✓ Increase the penetration of each chemical substance
- ✓ Minimize the risks of post-inflammatory hyperpigmentation
- ✓ Reduce the pain linked with TCA application

STANDARD PROTOCOL

- Apply 1 layer (20 drops) of Cosmo Forte to the face using cotton buds
- Start by the T-Zone, followed by the jaw line, mouth and cheeks
- Apply Panthenol Ceutic to calm and hydrate the skin

ADVANCED PROTOCOL

- Increase the number of layers of Cosmo Forte or target specific problem areas

PRECAUTIONS

- Patients skin should be assessed very carefully prior to peel use
- Not recommended for Phototypes IV to VI

PROVEN EFFICACY COSMO PEEL FORTE

BEFORE & AFTER PHOTOS (1 TREATMENT – 30 DAYS)

- 1. Improved skin tone & texture
- 1. Increased skin brightness
- 1. Reduced appearance of wrinkles and fine lines
